NNAWC TO HOST ANNUAL SIGHT IN DAY

November 1, 2024 - Mercer WI

The Northwoods Wildlife and Wetlands Club will host its annual Sight In Day at the NNAWC public shooting range at 834 Range Rd, off Hwy 51, 3.5 miles south of Mercer, on Friday November 21st from 8am to 5pm. This is the day before the gun deer hunting opener.

Sight in Day is a free event and open to the public. The NNAWC members include professional armorers, gunsmiths, and experience hunters who will assist zeroing in your rifle and any other issues presented. Spotting scopes, free targets, hearing protection, food and beverages, and a marshaled range are provided free of charge. Donations are welcomed.

NNAWC President Pete Wetzler states "Our annual Sight in Day is one of our most popular and appreciated events. Where else can a hunter, or non-hunter, get these services and lunch, at the best DNR public range in the state - and all for free!"

The NNAWC is a non-profit volunteer gun club which operates and maintains the DNR's Mercer shooting range featuring rifle, pistol, archery, and trap ranges. The NNAWC's mission includes the preservation of wildlife and habitat, firearms/archery safety, promotion of outdoor sports, hunter education, family recreation, and promotion of the Northwoods communities and businesses. Using the Mercer shooting ranges is free and open to the public.
